We have a passion for excellence in practice at the point of care and we desire to empower clinicians to transform their practices. Our passion for excellence is based on our honor for every life touched in healthcare and we value the optimal contribution of each practitioner who brings excellence to each point of care.

We bring joy to our work and teach with the goal to help you excel in your clinical practice and maximize your professional contribution. We believe nursing knowledge is central to the improved health of our patients and our systems of care. Our mission is to develop the highest quality educational programs with relevant and practical content that challenges and inspires you, leading you to expertise, confidence, and recognition in your clinical practice.

**Join us on your journey to

Acute Care Nurse Practitioner Adult Gerontology Certification Review Course

Do you want to learn in a way that results in increased confidence in clinical decision making and inspires your commitment to practice excellence? Do you want to be respected for your knowledge and contribution to exceptional patient outcomes? During this two-day course we take vast and complex information, synthesize it for you, and present relevant and practical applications. We also teach with heart and humor and engage you in an enjoyable learning journey.

This course equips you with the knowledge and skills you need to provide exceptional care as an acute care NP and to achieve your certification goals. We show you how to apply your new knowledge in clinical practice and give you clarity about how your interventions connect to patient outcomes. When you understand the value of your practice in impacting patient outcomes you increase in confidence which translates into a successful certification score. We have guided 100% of course participants to first time achievement of certification as an acute care nurse practitioner.

For further details and a full outline and description for each day please go to www.cardionursing.com.
