2

Why Sign Up for this Summer Cardiac Intensive?

During each intensive session you will engage in answering questions and problem-solving situations commonly seen in clinical practice.

You will be challenged to think critically and apply your knowledge

Rationales for effective decision making will be discussed.

You will gain new insights and clinical pearls that you will be able to apply immediately in your practice.

You will level up your nursing knowledge and skills in new ways and will be empowered to apply all you've learned.

3

How to Attend....

Register online by July 10th for the preorder sale price of only \$99.99 for 15 CE. After July 10th sale price is \$172.50.

Visit <https://www.cardionursing.com/live-classes/>

Register online for all 6 sessions. You can participate live at times that work for your schedule.

When you register you will receive two items:

- 1) A link to the live online session where you will have the opportunity to engage with the instructor during the Q&A.**
- 2) After the date of the live recording the online course will be loaded into your account at [learn-cardionursing.com](https://www.learn-cardionursing.com) where you will receive your CE certificate and will be able to review the video course and handouts for an unlimited amount of time.**

Visit <https://www.cardionursing.com/live-classes/>

If you are a current Primary, Premium, or Premium Plus Subscription member the courses will automatically be added to your account as they become available.
